

Task:

1. To write a script to pull out data from the database (ocknetmy_bursa) and have it displayed on the following pages. Your script shall run a cronjob 3 times a day to check the database of any new data entry. If there is, it shall automatically grab it and display it accordingly according to the design layout. The data shall be displayed in the respective front end pages and admin pages below.
2. In the admin pages, the user can edit and save the contents. Contents edited shall be displayed in front end and saved to database.

Note*All coded pages shall follow 100% the same design as following pages with correct breadcrumb, page title, page info & page content.
