

JOANNE ROSE CURRICULUM VITAE

**DEPUTY PROGRAMME LEADER,
MSC IN INTERNATIONAL HUMANITARIAN AFFAIRS
DEPARTMENT OF HEALTH SCIENCES, UNIVERSITY OF YORK**

ACADEMIC FELLOW, ISLAMIC RELIEF ACADEMICY

Tel: +44(0) 1904 321538 Email: jo.rose@york.ac.uk

Personal Profile

Worked and led multi-disciplinary teams in challenging environments. Participated in one multi-donor global evaluation of humanitarian assistance and one global evaluation of Dutch humanitarian assistance. Committed to the ongoing research of the delivery of humanitarian aid in complex emergencies particularly, the new humanitarianism – beyond do no harm; conditions of collaborating and cross-cultural communication. Innovative and award winning project manager with demonstrable leadership skills. Currently focused on producing a number of publications in high impact journals surrounding the delivery of humanitarian aid today and the role of cross-cultural communication and conditions of collaborating.

Education

- | | |
|-------------|--|
| 2014 – 2016 | University of York, Post Graduate Certificate in Academic Practice. |
| 2007 – 13 | Northumbria University. PhD . Thesis Title: the delivery of humanitarian assistance in complex emergencies: a case study of Somalia. Fieldwork in Puntland and Somalia. |
| 2004 - 05 | Newcastle University. MSc (Distinction) Engineering and Technology. Thesis Title: Water and Sanitation in Complex Emergencies. Fieldwork in Sudan. |
| 2000 - 03 | Northumbria University. BSc (1 st Class Honours) Geography and Environmental Management. Fieldwork in Kenya. |

Employment History

- | | |
|-----------|---|
| 2014-date | University of York, Deputy Programme Leader , MSc in International Humanitarian Affairs. Designing and developing teaching materials. Planning and developing research projects and activities in the field of humanitarian affairs and development. |
| 2012 | Programme Manager: Northumbria University and North Tyneside Council, Knowledge Transfer Partnership Associate . Remodel a local authority sheltered housing service to create a resilient, innovative, efficient and sustainable service that promotes ageing in place. Focused on creating a preventative and enabling service that promotes the resilience of older people. Created a nationally and internationally recognised and award winning service. Conducted qualitative and quantitative research including the use of SPSS statistical analysis software to establish a robust evidence base. |
| 2008-2011 | WSP International, Sustainability Consultant . Led and managed projects, providing sustainability strategies and advice for national and international clients (private, public & third sector) enabling them to meet both internal sustainable |

development objectives and regional and national regulations and standards. Developed community engagement strategies and innovative solutions to complex challenges.

2003-2008 ETC International, Consultant. Conducted and led humanitarian evaluations in countries affected by disasters, conflicts and uneven development including, Liberia, Mozambique, Sudan and Somalia. Project Manager to Mozambique and Tanzania for the Netherlands Climate Assistance Programme. Worked with a range of Ministries adapt or create new policies in response to climate change and support communities to adapt to the impacts of climate change. Conducted participatory research to establish how communities are adapting and levels of resilience.

Consultancy and Research

2016	Co-Advisor Self-care and wellbeing of community peace resources of Aman Network, Syria.
2015-2016	Principal Investigator to complete the final data analysis, report and finally delivery to the client of the Aga Khan Foundation ten-year retrospective research study of the Multi-Input Area development Approach in the Badakhshan region of Afghanistan (£260,000). Involved fieldwork in Afghanistan and workshops in Dubai. University of York.
2011	Team Member: Disaster Risk Reduction Mapping – Eastern and Southern Africa, UNICEF Regional Office, Kenya. Responsible for data collection and research in Disaster Risk Reduction in Burundi, Ethiopia, Eritrea and Somalia. Most research was collected via telephone interviews and e-mail correspondence.
2010-2011	Sustainability Consultant: North Tyneside Council, UK. Develop and utilise a robust sustainability assessment method for new and refurbished older peoples housing. Evaluate design plans and proposals and provide feedback and scoring to support the selection of a bidder in a £300 million private finance initiative.
2008	Team leader: evaluation of ACT Internationals (Action by Churches Together) response to the Tsunami Disaster in Somalia. Led a multi-disciplinary team to evaluate the immediate and longer-term impact of the emergency response across 15 towns and three districts. The evaluation was required to examine projects and programmes from 2005 to present assessing how effectively ACTs members responded to the Tsunami. Key evaluative criteria included timeliness, appropriateness, effectiveness, cost-effectiveness, gender-sensitivity, transparency and participation of the affected communities.
2008	Consultant: Dutch Government feasibility study of Biogas in Sudan. Examine the issues of a proposed household/community biogas programme in northern Sudan. Also provide broader input into the overall feasibility study and feedback for the African Biogas Initiative. Utilised a range of tools to assess the effectiveness and sustainability of biogas in northern Sudan. Examined the potential contribution of biogas in reducing carbon emissions and also the current impacts of climate change and increased climate variability in northern Sudan.
2007	Team Leader: evaluation of Norwegian Church Aid in the Gedo region of Somalia. The evaluator was contracted to examine emergency education, food security, HIV/AIDS and FGM (Female Genital Mutilation), income generation, peace building, water and sanitation and emergency relief projects using the OECD/DAC evaluative criteria. The evaluator visited project sites, met beneficiaries and held numerous focus group discussions. During the fieldwork the evaluator assisted in the coordination and implementation of an emergency response as a fire affected 100 IDPs (Internally

- Displaced Persons). The IDPs were identified and received NFIs (non-food item kits) within 8 hours. Developed a staff training and capacity building programme.
- 2007 **Team Member:** Norwegian Ministry of Foreign Affairs evaluation of INGOs ADRA and YME and their local implementing partners in Somalia. The evaluation was conducted in the southern Mudug region of Somalia. The evaluator was contracted to assess the hardware and software water and sanitation projects using the OECD/DAC evaluative criteria and internationally recognised standards (including Sphere). The evaluator was also contracted to undertake a needs assessment to identify future projects and programmes. Most time was spent in the field visiting projects, meeting beneficiaries and holding focus group sessions. Due to daily conflict and the potential for this to escalate the evaluation required excellent diplomacy and negotiation skills. Author of the final report to the Norwegian Ministry of Foreign Affairs.
- 2006 **Team Member:** evaluation of the Norwegian Refugee Councils Return and Reintegration Programme in Liberia. Evaluating the effectiveness, relevance /appropriateness and impact of the various projects, including, education, seeds and tools, shelter, and water and sanitation whilst also considering the implementation of cross-cutting issues such as gender and protection. The evaluation utilised Camp Management Toolkits and internationally recognised standards. Most time was spent independently in the field visiting IDP camps and projects, meeting beneficiaries, holding focus group discussions and working alongside local staff.
- 2005 **Team Member:** Netherlands Foreign Ministry evaluation of the Dutch humanitarian assistance to Sudan. The evaluation team was divided into three – Chad, Darfur and southern Sudan. The evaluator was contracted to assess the education, water and sanitation and food security projects of the International Rescue Committee, Save the Children-UK and UNICEF in southern Sudan and Chad using the OECD/DAC evaluative criteria and international standards. The evaluator met with a number of implementing partners, INGOs and NGOs to gain a comprehensive understanding of the situation and activities in Sudan. Extensive field travel was necessary to ensure a wide range of projects and beneficiaries were reached. Assisted in the completion of the final report and in drafting a global report of Dutch humanitarian assistance for the Netherlands Foreign Ministry (*Dutch Humanitarian Assistance: An evaluation, 2006*). The evaluator remained in Sudan after the evaluation was complete to undertake research and data collection for the Masters degree. Conducted impact assessments and surveys focusing upon food security and water and sanitation projects. Undertook water quality analysis, assisted in the installation of wells and latrines and participated in several hygiene promotion meetings.
- 2004 **Team Member:** Netherlands Foreign Ministry evaluation of humanitarian assistance to internally displaced persons (IDPs) in Somalia 1999-2003. A range of UN, World Bank and INGO projects and programmes supported by Dutch funding were evaluated. Organised and coordinated the evaluation team and their field plans for Somalia. Visited and interviewed the headquarters of the various agencies evaluated (including, IFRC, MSF, Save the Children, UNFPA, UNICEF, UNHCR, WFP and the World Bank). Produced situation reports and conducted security briefings. Assisted in the completion of the final report.
- 2003 – 2006 **Project Manager:** Netherlands Climate Assistance Programme (NCAP, www.nlcap.net) ran by ETC International. Jointly manage, monitor and provide technical assistance to 2 of the 14 countries involved (Mozambique and Tanzania). Designed and implemented a number of projects for the countries, largely focused upon community development and adaptations to climate change. Recruit team members and lead field teams to conduct baseline surveys, of both hardware and software that identify needs and enable realistic objectives and monitoring

indicators to be established. Train field teams to undertake both quantitative and qualitative data collection and analysis to ensure the assessment of needs is ongoing and that goals and objectives remain focused. Present project proposals and reports on a regular basis to relevant government ministries. Ensure a constant dialogue is maintained between all stakeholders including donors, government ministries, community groups and beneficiaries.

2003 **Researcher:** Livelihoods and gender research in western Kenya (Ndhiwa province) for ETC UK. Conducted household surveys and in-depth interviews, through a participatory approach, to gain insight into rural livelihoods and community development.

Training and Teaching Record

2016	Co-facilitator: Disaster Risk Management: Understanding the Higher Education Needs in Nepal. Banepa, Nepal.
2015	Trainer: Training and capacity building in Afghanistan with local researchers to carry out qualitative research methods for monitoring and evaluation. Kabul, Afghanistan.
2014-Onwards	Co-founder and co-facilitator of field building on humanitarian and development webinars for Nepalese practitioners, Knowledge for Disasters in Nepal and Kathmandu University: 2015 – Onwards.
2014-Onwards	Co-founder and co-facilitator of the Kenyan Red Cross Society humanitarian training programme.
2013-Onwards	Visiting Lecturer: MSc Public Health, Northumbria University (2013): Needs Assessments and Participatory Research.
2009-Onwards	Visiting Lecturer: MSc Disaster Management and Sustainable Development, Northumbria University (2010 & 2011): Humanitarian Assistance; and Evaluation Methodology.
2008 - 2010	Visiting Lecturer: MSc Community Wellbeing in Disasters and Development (2011): Evaluation Methodology; Humanitarian Assistance; and Participatory Research Techniques.
2007	Visiting Lecturer; Universidade Eduardo Mondlane, Mozambique. MSc Environmental Management: Participatory Research Methods.
2007	Moderator, E-learning module in Climate Change Adaptation and Renewable Technologies for the Climate Change Diploma, Northumbria University.
2005-2008	Visiting Lecturer: BSc Geography and Environmental Management, Northumbria University (2008 & 2009): Renewable Energy; and Climate Change.

Professional Memberships and Awards

2014	UK Housing Awards, North Tyneside Councils Sheltered Housing Service, Innovation Award
2014	Local Government Chronicle Awards, North Tyneside Councils Sheltered Housing Service Shortlisted for the Service Innovation Award
2013	Technology Strategy Board, Business Leader of Tomorrow 2013 National Award
2013	Association of Retained Council Housing (ARCH) Awards, North Tyneside Councils Sheltered Housing Service, Innovation and Sustainability Award
2012	Chartered Management Institute Member, Level 5 Award in Project Management expected August 2014
2011	British Society of Gerontology, Postgraduate Member
2010	Institute of Environmental Management and Assessment, Graduate Member
2010	Building Research Establishment Environmental Assessment Method (BREEAM). Qualified BREEAM in Education Assessor
2010	Green Building Council, Leadership in Energy and Environmental Design Accredited Assessor
